After Councilmember questions and clarifications, Mayor O’Connell read a statement explaining the proceedings and opened the public hearing.

Deputy Public Works Director Kinser said that each year the Council needs to adopt a resolution to put fees on the property tax roll to cover the costs of administering Brisbane's Local Stormwater Program, which minimizes discharge of pollutants to the San Francisco Bay as required by federally mandated permit requirements. She outlined the amounts being charged this year and the budget shortfall for the program. NEW BUSINESS

- A. Provide comments regarding proposed letter drafted for Mayor's signature regarding re-issuance of Municipal Regional Permit**

Deputy Public Works Director Kinser explained that the proposed letter was drafted with comments on the Tentative Order for the re-issuance of the San Francisco Bay Region Municipal

Stormwater Permit commenting on the re-issuance of the Municipal Regional Stormwater Permit.

She referred to the staff report which explained that the City and county “clean water program” representatives have been involved in extensive conversations with the Regional Water Quality Control Board staff over a lengthy period and that despite those meetings and the cities ongoing input, the Tentative Order contains language that the San Mateo Countywide Water Pollution Prevention Program participants and city staff believe will not further the goal of increased water quality. She said the proposed letter addresses the concern that some of the requirements in the Tentative Order are unproven as to removing the relevant contaminants, some requirements would ask cities to take actions for which they do not have the necessary legal authority, and other requirements that are an unnecessary allocation of already stretched resources.

City Attorney Roush said that one of the requirements of this new order would be to go back to projects that have already been approved. He indicated that the proposed letter addresses that issue and says that those prior projects should not be included in their requirements.

After Councilmember questions and clarifications, CM Lentz made a motion, seconded by CM Conway, to approve the letter to be signed by Mayor O’Connell. The motion carried unanimously by all present.

B. Consider adoption of Resolution No. 2015-34, a resolution of intention to initiate an amendment to the zoning ordinance of the City of Brisbane to require massage establishments intending to locate in a commercial zoning district to obtain a conditional use permit

City Attorney Roush said that in 2014, the City Council adopted comprehensive new operational regulations concerning massage establishments, specifically Chapter 8.10 of the Brisbane Municipal Code. He said that those regulations were not land use regulations in that, at the time, the State had purported to preempt most of the local land use regulations applicable to massage establishments. He said that after the Ordinance was adopted, the State law changed under AB 1147 which restored local land use authority concerning massage establishments so that cities could now impose land use regulations, such as conditional use permits.

Mr. Roush explained that the proposed Resolution of Intention is a way to ask the staff and the Planning Commission to initiate amendments to the zoning ordinance to address this change.

Police Chief Macias supported the proposed amendments and City Attorney Roush said that a Conditional Use Permit would add some additional requirements about where massage establishments can do business.

CM Liu asked that the requirement to post a 1-800 number in each massage establishment to report any illegal activity, be added to the massage establishment ordinance when amended.

After Councilmember questions and clarifications, CM Conway made a motion, seconded by CM Lentz, to adopt Resolution 20154-34 as proposed. The motion carried unanimously by all present.

After Councilmember discussion about the need for further public outreach about the issue, they directed staff and the Planning Commission to conduct further outreach and study to determine how these types of rentals are a benefit to the community and then make recommendations to the Council regarding potential regulations as well as licensing, revenue options, and enforcement issues.
