Dear Permit Applicant:

Attached is the application you requested for a San Bruno Mountain Site Activity Permit. Please fill it out and FAX to the following parties for approval:

Sam Herzberg at San Mateo County (650) 599-1721
Thomas Reid Associates (650) 327-4024

Do not limit yourself to the space provided. Although some projects are small and the application may be completed on the form, more detail is usually required than will fit on the application form. Each category should be answered in detail, including personnel used, job schedule, and protective measures intended to limit impacts. Job schedules and personnel used during different phases of work are best communicated in a table. Protective measures needed to avoid impacts may include erosion control, careful timing of work, education and avoidance of sensitive resources, and limitations on the equipment and personnel used.

Approval of the San Bruno Mountain Site Activity Permit does not render unnecessary other permits that may be required for your project, from other agencies or governing bodies (i.e. US Army Corps of Engineers, California Department of Fish and Game, US Fish and Wildlife Service, California Regional Water Quality Control Board, California Department of Forestry, Bay Area Air Quality Management District). It is the applicant's responsibility to have all necessary permits in order before beginning the project.

Proof of the landowner's permission for the project or initiation of the project is also required, if the applicant and landowner are not the same.

Sincerely,

Patrick Kobernus
San Bruno Mountain HCP activities coordinator
