Community Development Director Swiecki said that in 2014, City Council adopted comprehensive operational regulations concerning massage establishments under the Brisbane Municipal Code Chapter 8.10. He said that these regulations were intended to provide the City some operational control over massage establishments, since the State at that time preempted local zoning regulations specific to massage establishments. He said that subsequently the State adopted AB 1147 which restored local land use authority over massage establishments.

Mr. Swiecki outlined what the proposed amendments would be if the ordinance was adopted as presented. He said that it would define massage as distinct from other personal services, allow massage establishments as a conditional use in commercial and mixed use zoning districts, prohibit massage establishments as home occupations except as home offices for out-call services, and provide that massage businesses post a notice in a conspicuous place near the public entrance that informs persons who are being forced to engage in any activity, including commercial sex, and cannot leave, to call the National Human Trafficking Resource Center or the California Coalition to Abolish Slavery or Trafficking.
